Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 15 August 2005.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Response to Amendment

1. Applicant's amendment filed August 15, 2005, with respect to the rejected claims have been fully considered and the rejection of the claims has been withdrawn. However, upon a review of the claims previously indicated as allowable, some of the claimed features appear to be indefinitely written as set forth below.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1,2,3,5-14,15,17-32 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1 and 13 recite "correlation periods which are not entirely contiguous."

However, the meaning of the phrase "not entirely contiguous" is neither self evident nor clearly defined in the specification. In other words, what arrangement of "a plurality of correlation periods" is considered to be "not entirely contiguous" is not clearly understood.

The word "corresponding" is used rather numerous in the claims, presumably to define a relationship between claimed elements. But what are "corresponding" to each other is not clearly understood. In "selecting a corresponding search task period during which to perform corresponding correlations," what the selected search task period corresponds to is not

Art Unit: 2638

immediately understood. Likewise, what the performed correlations correspond to is not understood.

“during the correlation period” should be changed to “said each of a plurality of correlation periods” to provide a proper antecedent basis.

The claims have been understood in connection with an embodiment illustrated in Fig.5 of the present drawings. Applicant, therefore, is invited to draft the claims as consistent with or supported by the embodiment illustrated in Fig.5 as a way to remove the above rejection.

Claims 2,3,5-12,14,15,17-32 are rejected for the same reason as dependent on rejected base claims respectively.

Allowable Subject Matter

4. Claims 34-41 are allowed.
5. The following is a statement of reasons for the indication of allowable subject matter: No prior art teaches or suggests a searcher wherein a counter is used to identify the number of search tasks scheduled for each of a plurality of search task periods and a scheduler schedules a new search process by selecting search task periods with fewer scheduled search tasks .
